UNIFORM CRIME REPORT

for the
STATE OF MICHIGAN

24th Edition

FOREWORD

This is the 24th Annual Report on Crime in Michigan prepared by the Department of State Police. Users of the Report are reminded that the data conveyed in this publication depicts only that crime reported to the Uniform Crime Reporting program and does not purport to identify the absolute total of all crimes committed in the State. Although not a "total accounting" of all crimes committed, the data does represent a disciplined effort by Michigan law enforcement and it is a yardstick for public evaluation of criminal activity within this State.

The format of this year's publication has been significantly revised: First, the data for each contributor is being presented for the first time since 1975; Next, Arson has been incorporated into Index Crime Totals as mandated by the U.S. Congress; Finally, the standard for delineating "Rural Crime" has been changed to more accurately reflect crime occurring in rural areas. Users of the report should take special notice of the last two changes as they do have impacts on crime totals and rates.

Each of the 575 contributing agencies share in the success of our Crime Reporting Program and it is obvious that the spirit of cooperation serves the people of Michigan well. It is with great pride that we now share the product of their reporting labors.

CRIME REPORTING IN MICHIGAN

THE MICHIGAN UNIFORM CRIME REPORTING SYSTEM

Michigan began its program to collect crime statistics from around the State in 1959 when the State Police requested each police and sheriff's agency to voluntarily submit crime data to its headquarters for purposes of forming the report. The number of participating agencies was rather small in the beginning, with participants tending to be in the larger departments. Enactment of Michigan Public Act 319 of 1968 greatly spurred the growth of the program by making the submission of the data mandatory. Smaller agencies began to increase participation since that time, and the data in this volume represents activity reported by 575 agencies.

Before using this report, it may be helpful to the reader to review the following general information regarding the UCR System:

(1) The crime figures presented in this issue are "police statistics" and are distinguished in this manner so that they are not confused with judicial or penal statistics.

(2) Crimes reported represent violations of Michigan statutes and local ordinances.

(3) Each reporting agency counts only those crimes or arrests for crimes committed within its jurisdiction.

(4) Offenses reported to the police are divided into Index and Non-Index offenses as outlined below.

(5) Offenses are compiled at the end of the month during which they became know. The police may become aware of the crime in several ways: reports of police officers, citizens' complaints, notification from the prosecuting attorney, court officials, or in some other manner.

(6) Offenses are included without regard to a) age of offender, b) value of property involved, c) recovery of stolen property, d) arrests, or e) action by prosecution.

(7) Complaints that are found by the police to be unfounded are not included in the crime tables even though as much time is often consumed on verification of the offense as there is in a solution.

Interpretation of the meaning of the terms "**Index**" and "**Non-Index**" crimes can be aided by a review of the following brief listing of general crimes included in each category:

ACT 319

PUBLIC ACTS 1968 (as amended)

AN ACT to provide a uniform crime reporting system; to provide for the submitting of such report to the department of state police; to require submission of the report by certain police agencies; to require the reporting on wanted persons and stolen vehicles; and to vest the director of the department of state police with the authority to prescribe the reporting form and its contents.

The people of the State of Michigan enact:

Sec. 1. The police department of each city or village, any duly constituted police department of a township, and the sheriff's department of each county, once each month upon a date and form prescribed and furnished by the director of the department of state police, shall forward to the department of state police a crime report. Each reporting department shall report only on cases within its jurisdiction and upon which it is making, or has made, the primary police investigation. The report shall be called the uniform crime report and shall cover crimes reported and otherwise processed during the month preceding the month of the report. It shall contain the number and nature of offenses committed, the disposition of such offenses and such other information as the director of state police shall specify relating to the method, frequency, cause and prevention of crime. Under no circumstances shall the name of any person be reported.

Sec. 2. Upon receipt of the monthly uniform crime reports from the reporting agencies, the department of state police shall prepare a statewide compilation of the statistics contained therein and the resulting statistical compilation shall be available to any governmental law enforcement agency in the state, the judiciary committees of the Michigan state senate and the Michigan state house of representatives, and the federal bureau of investigation, upon request. The statistics made available through the uniform crime report shall be used for the purpose of studying the causes, trends and effects of crime in this state and for intelligence upon which to base a more sound program of crime detection and prevention and the apprehension of criminals.

Sec. 3. Any governmental police agency, not falling within the description of those required to submit the monthly uniform crime report set forth in section 1, which desires to submit such a report, shall be furnished with proper forms by the department of state police. When a report is received by the department of state police from a governmental police agency not required to make such report, the information contained therein shall be included within the monthly compilation provided for in section 2.

Sec. 4. The chief of police of each city or village and of each township having a police department, and the sheriff of each county within this state, shall report to the department, all persons wanted by, and all vehicles stolen from, their primary police jurisdictions. The report shall be made as soon as is practical after the investigating department either ascertains that a vehicle is stolen or obtains a warrant for an individual's arrest or determines that they have reasonable grounds to believe that the individual committed a crime. In no case shall this time exceed 12 hours after the reporting agency determines that it has grounds to believe that a vehicle was stolen or that the wanted person should be arrested.

Sec. 5. When at any time after making a report required by section 4 it is determined by the reporting agency that a person is no longer wanted because of this apprehension, or any other factor, and when a vehicle reported stolen under section 4 is recovered, the chief of police or sheriff of the reporting agency shall immediately notify the department of state police in a manner prescribed by the department.

Sec. 6. The provisions of this act do not apply to misdemeanor traffic offenses, or for the violation of any city, village or township ordinance. The provisions of this act shall not be construed to in any way affect existing or future laws and procedures governing the reporting of persons wanted for traffic law violations or for the violation of city, village or township ordinances.

Sec. 7. The chief of police of each city or village, the chief of police of each township having a police department, and the sheriff of each county within this state shall report to the department of state police, in a manner prescribed by the department, the following information related to crimes of domestic assault:

(a)The number of assaults reported which involve an adult and a minor and the disposition of those offenses.

(b)The number of assaults reported which involve 2 male adults or 2 female adults and the disposition of those offenses.

(c)The number of assaults reported which involve 1 male adult and 1 female adult and the disposition of those offenses.

(d)The number of assaults reported which involve a person and his or her spouse and the disposition of those offenses.

(e)Other statistics the director of the department of state police considers necessary to obtain accurate and reliable data on the incidence of domestic assault in this state.

COMMENTARY ON 1982 CRIME DATA

1. POPULATIONS USED IN COMPUTING CRIME RATES

Student populations for colleges and universities are used only to compute the crime rate for the facility, but not for county and total state rates.

Also, when comparing crime rates for different years, it should be noted that crime rates for 1977 are based on 1975 estimated census populations and the 1981 and 1982 rates use the 1980 census figures.

2. CAMPUS CRIME

Previous to 1982, crime data published for "rural areas" included activity reported by State Police, Sheriff Departments, agencies with a service population of less that 2,500 and all unincorporated areas. These unincorporated areas included activity reported by campus police agencies.

Because the majority of campuses are located in urban areas, 1982 crime data reported by campus police agencies has been included in the "urban areas" crime figures.

3. 1982 ARREST DATA

New processing criteria have caused disparities in the 1982 arrest data, and will impact multi-year comparisons.

4. INDEX CRIME TOTALS

It should be noted that beginning with the 1982 publication, Arson has been included in the Index Crime totals.

1982 UNIFORM CRIME REPORT PARTICIPATION

MICHIGAN CRIME IN A NUTSHELL

Total reported crime decreased 6% in 1982 compared to less than 1% decrease in 1981. The crime rate for total crime was 12,743 per 100,000 population, or one reported crime for every 8 Michigan residents.

Index crime decreased 3% as compared to the previous year. The index crime rate for 1982 was 6,752 per 100,000 population, or one reported crime for every 15 Michigan residents.

The largest increase in index crime appears in the classification of Motor Vehicle Theft at 5%, with increases also in Robbery and Murder at 4% and 1% respectively. Decreases in index crimes are observed in Rape at 6%, Burglary at 5%, Larceny at 4%, Aggravated Assault with 3%, and Arson with a decrease of 20%.

Total arrests for 1982 decreased 6% as compared to an increase of 7% in 1981. Juveniles (under age 17) accounted for 12% of those arrested.

OFFENSE AND ARREST DATA FOR THE STATE

MICHIGAN

Michigan is 456 miles long, 386 miles wide and its 58,216 square miles of land area place it twenty-third largest among the 50 states. Its two peninsulas are divided into 83 counties and the U.S. Census Bureau indicates its 1980 population to be 9,258,344.

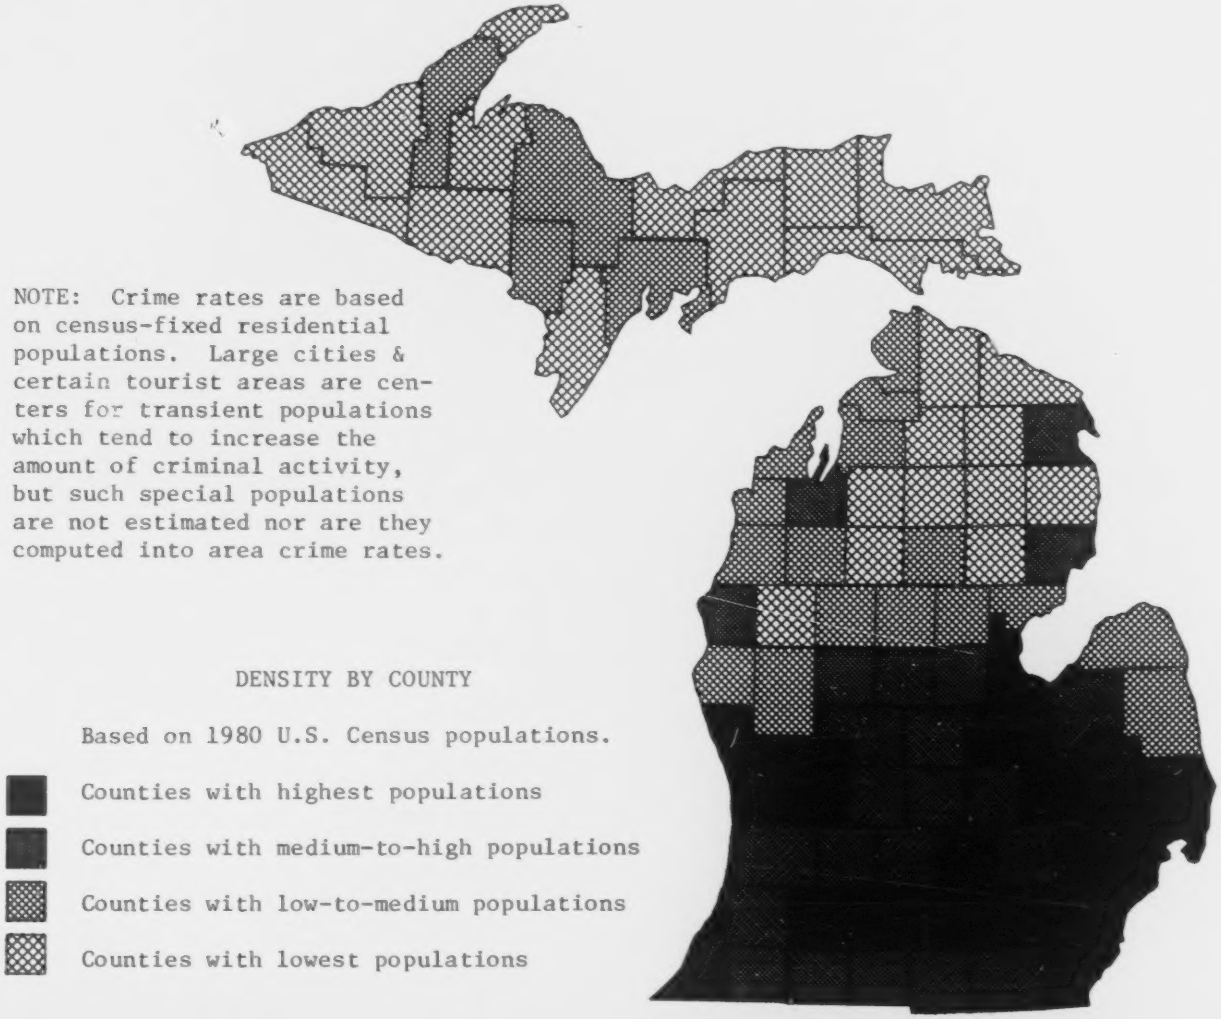
POPULATION DENSITY

Michigan's population distribution is characterized by dense concentrations in the south and sparseness in the north. Nearly half of the State's total population is clustered in southeast Michigan. Other metropolitan areas are located along major interstate highways I-94, I-96 and I-75. This map represents the number of persons per square mile.



NOTE: Crime rates are based on census-fixed residential populations. Large cities & certain tourist areas are centers for transient populations which tend to increase the amount of criminal activity, but such special populations are not estimated nor are they computed into area crime rates.

POPULATION PYRAMIDS

A population pyramid is intended to graphically show the distribution of persons by age and sex. The theoretical pyramid shows an equal number of males and females with fewer individuals in each successive age cohort. Each bar shows the percent of the total in that age cohort, male and female, and the total of all the bars is 100%.

The pyramids displayed at the bottom show the characteristics of Michigan's 1981 and 1982 Total Arrests. When these pyramids are compared, we find that the 1982 male age cohort representing the arrestees in the 15-19 age group has decreased significantly with an increase in the number of arrestees in the 20-24, 25-29, and 30-34 age groups.

The 1981 and 1982 female age cohorts show minimal change.
